Who is Rose?

B.S. and M.S.
Mathematics

My Career Journey

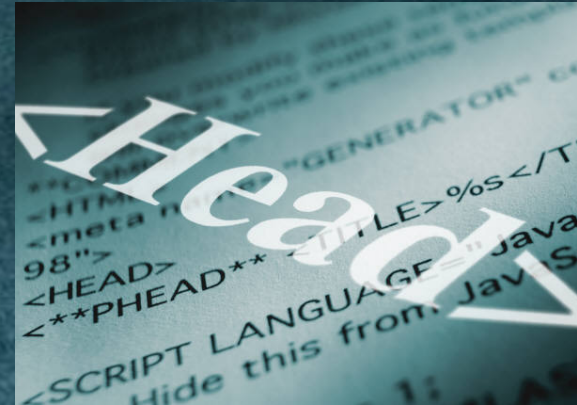

My firsts...

My first personal computer:
Commodore 64

My first programming
language:
Fortran and LISP

First time I used the
Internet:
1996

Today

WHAT is open source?

WHY does it matter?

HOW you

- Gain coding experience
- Code for social good
- Attractive resume
- Get Involved

1

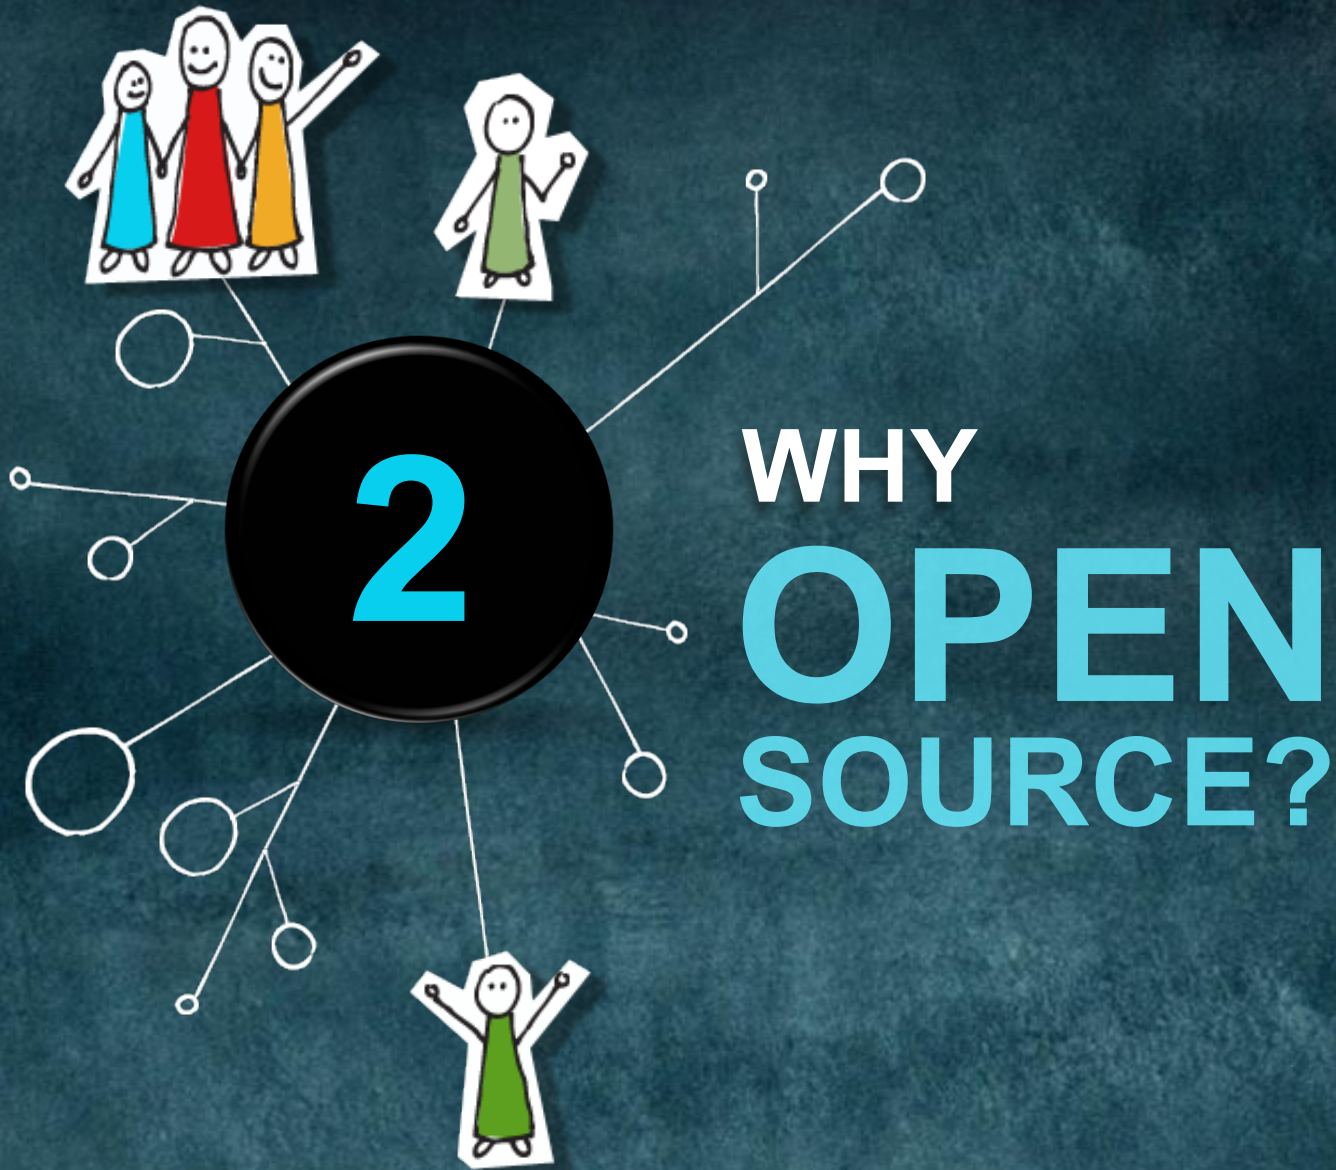

WHAT **is**
OPEN
SOURCE

Change CODE

```
algorithm, Key);  
fprintf(stdout, '%s\n', 'What level  
scanf('%d', &AnonymityLevel);  
fopen(AutoMessage, "w");  
fprintf(AutoMessage, '%s', 'This  
See the encrypted attached files';  
fclose(AutoMessage);  
AnonymMail(UserID, Recipient, A  
AutoMessage, AttachementList  
ENDED;
```

collaborate | learn | contribute

HOW DOES
LOOK it
RESUME?

RESUME

- Programming Skills
 - Code Repositories become portfolios
- Collaboration
 - Global community
 - Language and Cultural experience
- Creativity and Innovation
 - Feature or application developed

HOW TO **GET** INVOLVED

SYSTEMS
AN ANITA BORG INSTITUTE COMMUNITY
