Final Report Evaluation					
Design Criteria and Specifications	0	15%			
Describes all the system specifications	0				
Describes the Design Criteria	0				
Describes the design/implementation/testing tools and how they					
were used	0				
Analyzes the constraints and limitations of the system	0				
Analyzes the constraints and limitations during the design and					
implementation of the system and how they affected system specs	0				
Analyzes the minimum/recommended requirements of HW and					
SW for the system to run properly	0				
Methods and approach to the solution	0	15%			
Presents an account of the activities in the project	0				
Describes how the specs of the system were tested and validated	0				
Presents the organization of the team and any adjustments needed					
during the project	0				
Describes and justifies changes in schedule	0				
Describes contingency measures for changes in schedule	0				
Market Overview	0	5%			
Presents system users both current and potential	0				
Identifies competitors and how the system compares with					
competition	0				
Results and Discussion	0	10%			
Presents the technical results of the project	0				
Presents and analyzes the ethical aspects of the project	0
