College of Engineering**

B. Instructor Information Sheet

1. General Information:

Instructor: Nayda G. Santiago Santiago
Title: Associate Professor
Office: S-215
Phone: 832-4040 Ext. 3510
Office Hours: Mon, Wed, Fri, 8:30am to 9:30am
E-mail / URL: Nayda.Santiago@ece.uprm.edu /<http://www.ece.uprm.edu/~nayda>
Course URL: <http://www.ece.uprm.edu/~nayda/Courses/Icom4215F2010>

2. Course Description:

Course Number: ICOM 4215
Course Title: Computer Architecture and Organization
-- See item number 2 in Course Syllabus Section for Course Description.

3. Purpose:

The purpose of the course is to introduce students to the Computer Architecture concepts and design issues. Students will learn to design a CPU.

4. Requirements

All students are expected to:

- Complete all lessons.
- Do all assigned readings and related homework.
- Participate in class.
- Work in teams.
- Come to class all the time and on time.
- Pass all tests, projects, and quizzes to receive credit for the course.

5. Laboratory/Field Work (If applicable), General Rules:

No laboratory project or fieldwork is required.

Radios, tape recorders, and other audio or video equipment are not permitted in the classroom at any time.

Cellular Phones and pagers should be in quiet mode in the classroom and OFF during exams.

Smoking is not permitted in any area other than those areas designated for smoking.

Lab workshops are necessary if the student does not have the language/simulation/programming skills required to complete the assigned work.

B. Instructor Information Sheet

6. Instructional Strategy:

The course will consist mainly of lectures and design projects.

Students will be assigned problems as homework for their own benefit. Not all problems will be collected for grading, however, failure to complete homework problems will adversely affect students skills to master the material. There will also be homeworks to collect in class. Quizzes will test the student skills.

Teamwork is expected. Groups will be assigned to work on a homework. One student from the group will be selected to answer a question and the evaluation will be based on this answer. In teamwork exercises all students from a particular group will have the same grade. Partners will be assigned randomly.

Projects will be assigned individually. Students are expected to learn a HDL language on their own.

All knowledge from the Micro II (Inel 4206), Logic Circuits (Inel 4205), Algorithms and Computer Programming (Inge 3016), Electronics I (Inel 4201), and Analysis I (INEL 3105) is expected to be known by the student.

All assigned work will count towards the final grade.

8. Evaluation/Grade Reporting:

B. Instructor Information Sheet

Evaluation will be based on two midterm exams, three projects, quizzes and homework, attendance and participation, and a final exam weighted as indicated below:

Midterm 1	10%
Midterm 2	10%
Final Exam	10%
Project 1	10%
Project 2	15%
Project 3	20%
Quizzes & Hwks	10%
Attendance and Punctuality	5%
Discussion and participation	10%

Total: -----
100%

Quizzes and homeworks will count towards one grade. The lowest grade in a quiz will be dropped and others will count towards the grade. We will not have makeup quizzes. There will be a quiz evaluating the material taught from the date of midterm 3 to the end of class.

Final grades will be assigned according to the following scale:

0	-	59	F
60	-	69	D
70	-	79	C
80	-	89	B
90	-	100	A

9. Deadlines:

Important dates:

Exam 1:	Sat, October 9, 2010
Project 1:	Mon, October 18, 2010
Exam 2:	Wed, November 3, 2010
Project 2:	Mon, November 15, 2010
Project 3:	Wed, December 15, 2010
Final Exam:	To be arranged by registrar's office

All exams will be held during the class hour.

10. Attendance and Behavior:

B. Instructor Information Sheet

- Attendance will be daily monitored in class.
- Students are not allowed to leave the classroom during class except in exceptional circumstances.
- It is the student responsibility to ensure signing-up everyday the attendance list to be circulated by the professor at the beginning of each class.
- Approximately, every 15 lectures an attendance report will be generated.
- A student with more than 3 (three) missed lectures in a reporting period will be considered not to be regularly attending class.
- Make-up for exams will be furnished only upon “valid excuse”. Your professor reserves the right to determine what is a “valid excuse”.
- No baseball caps allowed during quizzes or exams.
- No “special” projects will be given to anyone to improve grades or for any other reason.
- Students are not allowed improper behavior.
- Honesty is expected from all students. If a student is caught cheating during an exam, quiz or homework, this clearly demonstrates that he or she is not capable of producing individual intellectual property material. Therefore the student will face the following sanctions:
 - The grade will be zero in the piece of work where cheating was found.
 - The department will be notified of the student name and evidence of cheating so the department determines if disciplinary action should be taken to the “Junta de Disciplina”. If there is a pending case at the “Junta de Disciplina”, the student will be awarded an incomplete with F until the “Junta de Disciplina” decides the case.

12. Instructor Responsibilities (If applicable):

Your instructor will provide handouts for material discussed in class not covered in the textbook.
