

al leakage
OFF.

ectrical
electricity!

7. Use Cold water for washing
Hang clothes if possible
8. Use dishwasher only when full
Wash by hand if possible
9. Eating habits:
Eat less meat (means less methane)
Eat local products (means less transport)
Eat organic products (better for you)
10. Plant trees
They also lower house temperature
They reduce CO2
11. Car pooling, walking or biking
Use public transportation
12. Avoid sanitary dishes/napkins
Both Styrofoam or paper
Buying kitchenware saves money
13. Buy products with least packaging
Large family packs, come in bulk
Gift bags instead of wrapping
Water bottles! ☹️ - use reusable
14. Recycle! –it saves a lot of energy
(plastic, paper, cardboard)
15. Email your senators, governors
