

**First UPRM Workshop on Parallel and
Distributed Computing**

**University of Puerto Rico at Mayaguez
February 10-11, 2004**

**Current activities on image processing at the Universidad de la Republica, Uruguay
Gregory Randall, Universidad de la Republica, Uruguay**

In this talk we will discuss the work developed by the Image Processing Group of the Institute of Electrical Engineering at the Universidad de la Republica. This work includes applications to biology and medicine. In particular we will present our solutions to the problem of the estimation of parameters for meat production quality in Uruguay.
