The objective of this assignment is to provide you with another opportunity to review the materials related to Chapters 5 and 6 with your classmates.

For this assignment, participants will be formed to groups of up to 6 students. In each group, one student will be assigned as a tutor, and the rest would be learners. Your role of being a tutor or a learner will be defined based on your grade in Partial Exam 2 as follows:

If your grade is less than 60, then you will be most probably a learner in this assignment
else If your grade is greater than 61, then you will be most probably a tutor in this assignment
else you will be either a tutor or a learner based on the grouping needs.

This assignment has 3 stages with the following specifications and deadlines:

**Stage 1:** send me an email specifying **whether or not** you participate in this assignment. In particular, those who wish to participate in this assignment send me an email like this:

  - **Email Subject:** ICOM4036, A7, Yes
  - **Email Body:** empty

And those who will not participate in this assignment send me an email like this:

  - **Email Subject:** ICOM4036, A7, No
  - **Email Body:** empty

**Stage 1 is due on Friday, March 12, at 7:00 PM.**

After receiving your emails, I will send each participant an email in which I will determine their groups as well as who the tutor of that group is and who the learners are.
Learners’ Stage 2: every learner is required to send an email containing 2 questions to their tutor. The questions should be picked from Chapters 4 & 5, Assignments 5, Partial Exam 2, or problem sets of the textbook.

Learners’ Stage 2 is due on Monday, March 15, at 5:00 PM.

Note 1: this email should be sent to your tutor (and not to me).
Note 2: If your tutor reports me that you have failed to send him/her your 2 questions on time, it will be treated as you have failed in cooperating in this assignment.

Tutors’ Stage 2: every tutor is required to immediately contact his/her learners to schedule at least 2 sessions of at least 75 minutes each. These sessions must be held between Tuesday March 16 to Sunday March 21 (inclusive) in campus some time between 7:00 AM to 9:00 PM (based on your learners’ availability). All learners are required to attend all sessions.

Tutors are required to send me an email by Monday, March 15 at 10:00 PM, announcing the following:

1) their sessions’ schedules and
2) their session locations

Tutors’ Stage 2 is due on Monday, March 15, at 10:00 PM.

Learners’ Stage 3: All learners are required to attend all sessions of their group. Learners can also sit in sessions of other groups. Then, every learner is required to send me a report on all questions that have been solved in all their sessions. Your report should clearly state each problem and its corresponding solution. The report should be sent to me by Monday, March 22 at 5:00 PM.

Note 1: It is extremely important that you write the report IN YOUR OWN WORDS. Answers that are very similar to those of another student or other resources are not accepted.

Note 2: For this assignment, typing is preferred (rather than handwriting).

Deadline: Monday, March 22 at 5:00 PM.

Tutors’ Stage 3: every tutor is required to send me an email that contains the attendance list of your learners in your sessions.

Deadline: Monday, March 22 at 5:00 PM.

**** Note the deadlines (dates and times) are firm. Please plan ahead. ****
